Subject: Vibracore

Scott,

As you know, the State of NY has requested that EPA collect a few more sed-cores in LLC.

This e-mail is to re-confirm that EPA plans to vibracore in LLC along the south side of the creek by RT-11, Tuesday, Oct 4th. Our sub-contractor will bring a crane to reach over and lower the vibracore into the creek. I assume EPA will take 2-3 cores. Should EPA exceed your H&S air number (i.e., 5-ppm), we'll evacuate the area until the situation has been corrected or a return to safe levels. I do not anticipate it will take EPA very long to collect the cores. I'll have everyone sign in.

Thank you,

Jeff M. Catanzarita
Environmental Engineer
